<20%

HEALTH HAZARD INFORMATION

Health Effects

Skin: If warm water (>25°C) is used to wet the bandage, the setting Plaster of Paris may generate a temperature high enough to cause a burn.
Eye: Dust may be released when cutting and removing the set bandage, which may enter the eye and may cause mechanical irritation.
Inhalation: Dust may be released when cutting and removing the set bandage which may irritate the mucous membranes of the respiratory tract.
Ingestion: Ingestion of Plaster of Paris bandage before being wetted may result in hardening after absorbing moisture from the G.I. tract, potentially resulting in obstruction of airways. No symptoms expected from ingestion of small amounts of the hardened bandage.

First Aid

Skin: For burns, treat as for a thermal burn.
Eye: Rinse eye with water to remove any dust particles.
Inhaled: Remove to fresh air, away from the dust source.
Ingestion: Seek medical attention, treat symptoms of obstruction of airways.
PRODUCT SAFETY DATA SHEET

PLASTER OF PARIS BANDAGE

PSDS No. 06

Date of Issue: 24 April 2013

PRECAUTIONS FOR USE

Controls

Ensure adequate wetting of the bandage, in water at 20-25°C, in accordance with the instructions for applying the bandage (see the instructions provided with the product). Where set bandages are removed by cutting, ensure good dilution ventilation. Take action to control dust levels being generated. Consider tools with local exhaust extraction built in.

Personal Protection

When preparing the bandage for use:

Wear impervious gloves (e.g. rubber or plastic).

When cutting and removing the bandage:

Wear safety glasses with side shields or safety goggles. Where dust may be inhaled, wear a dust respirator meeting Australian Standards AS1715 & AS1716.

Flammability

Non-combustible solid, will not burn.

SAFE HANDLING INFORMATION

Storage and Transport

Store in cool, dry, well-ventilated area. Keep away from heat and high humidity. No special transport requirements.

Waste and Disposal

Waste: Place in a labelled container for disposal.

Disposal: in accordance with local waste regulations.

May be landfilled in an approved facility.

Used: bandages may need to be disposed of in accordance with the local authority's infectious waste requirements.

Fire Hazard

Extinguishing Media: According to the surrounding area. Any standard fire extinguisher may be used.

OTHER INFORMATION

Reactivity

Conditions to Avoid: Dust formation when cutting the set bandage.

Environmental Issues

No environmental issues expected.
