SECTION 1 – IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product
Product Name: REMOVE ADHESIVE SOLVENT WIPES

Other Names: None

Manufacturer's Product Code: 403100

Use: Universal adhesive remover wipes (adhesive tapes, dressings, acrylic adhesives). Use for the removal of adhesive by applying to the edge of tape or appliances.

Supplier
Company: Smith & Nephew Pty. Limited
Address: 315 Ferntree Gully Road, Mount Waverley, Victoria 3149
Telephone No.: Customer Service: (03) 8540 6777 (Toll Free 13 13 60)
Emergency Tel. Nos.: (03) 8540 6777 (business hours)

SECTION 2 – HAZARDS IDENTIFICATION

Hazard Classification: NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

Hazards Overview: Small polyester rayon wipe containing approx 1.2 ml of flammable and combustible liquid.

Risk Phrases: Not a Workplace Hazardous Substance. Once opened, the Hazard Category is FLAMMABLE

R10 Flammable

Safety Phrases: Keep away from ignition sources - No smoking.
S25 Avoid eye contact.
S26 In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre.

SECTION 4 – FIRST AID MEASURES

**First Aid**

**Swallowed**
In the unlikely event that a wipe is swallowed, do NOT induce vomiting. Give water, or 20-50 millilitres of an edible mineral oil. Get medical attention immediately.

**Eye**
Rinse eye with water for 15 minutes, whilst lifting eyelid. Get medical attention if effects persist.

**Skin**
Wash thoroughly with soap and water.

**Inhaled**
Move individual to fresh air. Seek medical attention if effects persist. Restore and/or support breathing as required.

**First-Aid Facilities**
Eye wash plus normal washroom facilities nearby.

**Advice to Doctor**
Treat symptomatically.

SECTION 5 – FIRE FIGHTING MEASURES

**Hazards From Combustion Products**
Flammable solvent within each wipe sachet. Hazardous combustion products may be toxic and or irritating fumes / compounds. Never use sources of ignition near the container. Fire decomposition products include oxides of carbon and partly oxidised hydrocarbons.

**Suitable Extinguishing Media**
Water spray, dry chemical foam, carbon dioxide.

**Fire-fighting Procedures**
Wear self-contained breathing apparatus. Do not release run-off to sewers or waterways. Water spray can be used to cool fire-exposed containers. Vapours are heavier than air and may travel a long distance to an ignition source and flashback.

**Hazchem Code**
Not applicable.

Date of Issue: 13 June 2008
SECTION 6 – ACCIDENTAL RELEASE MEASURES

| Spill / Leak Procedure | Eliminate sources of ignition. Prevent from entering sewer, drains or other bodies of water. Absorb spill with sand or vermiculite and place in a sealed, labelled container for disposal. |

SECTION 7 – HANDLING AND STORAGE

| Handling Advice | Avoid prolonged skin and eye contact. Avoid breathing vapours. |
| Storage Advice | Store in a cool (< 25°C), well-ventilated area away from sources of ignition, heat, sparks, flames and strong oxidising agents. |

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

| Exposure Standards | Dipropylene Glycol Methyl Ether |
|                   | TWA 100 ppm (606 mg/m$^3$)     |
|                   | STEL 150 ppm (909 mg/m$^3$)     |
|                   | Isoparaffin C10-C11 |
|                   | TWA 300 ppm (manufacturer’s recommendation) |

| Engineering Controls | Provide good general ventilation. Keep separate from ignition sources. |
| Personal Protection  | Avoid prolonged skin contact and avoid breathing vapours. Wash thoroughly after handling. DO NOT get into eyes. DO NOT swallow. |
|                     | Where many wipes are to be used consecutively, it may be advisable to wear solvent resistant gloves (e.g. nitrile rubber) and eye protection. |
MATERIAL SAFETY DATA SHEET

REMOVE ADHESIVE SOLVENT WIPES

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance and Odour
Polyester wipe material impregnated with a colourless liquid with a slight paraffinic and perfume odour. The individual wipes are in a small foil packet 50 mm x 55 mm x 2 mm thick, and supplied in a box of 50 packets.

Melting Point / Boiling Point
Melting Point: Not determined
Boiling Point: >177°C (solvent)

Vapour Pressure
<10 mmHg at 20°C (solvent in the wipe)

Vapour Density (Air=1)
>1

Specific Gravity
0.83 (solvent in the wipe)

Flashpoint
46°C (Closed Cup) (solvent in the wipe)

Flammability Limits (FL) (%)
Lower FL: 0.6%  Upper FL: 6.5%

Autoignition Temperature
Not determined.

Solubility in Water (g/L)
Solvent is appreciably soluble in water.

Percent volatile by volume
50% approx.

SECTION 10 – STABILITY AND REACTIVITY

Stability
Stable at room temperature.

Conditions to Avoid
Heat and ignition sources.

Incompatible Materials
Avoid contact with strong oxidising agents and strong acids.

Hazardous Decomposition Products
Oxides of carbon and partially oxidised hydrocarbons.

Hazardous Polymerisation
Will not occur.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute Effects
Swallowed
May cause gastrointestinal irritation.

Eye
May cause temporary irritation or conjunctivitis.

Skin
None known.

Inhaled
May cause upper respiratory tract irritation.

Chronic Effects
Chronic or repeated exposure may cause conjunctivitis of the eye, respiratory tract irritation, and defatting of the skin, leading to irritation and dermatitis.
SECTION 12 – ECOLOGICAL INFORMATION

Environmental Issues
No environmental issues expected due to the small quantity of solvent contained in each wipe.

Persistence & Degradability
Not available.

Mobility
Not available.

SECTION 13 – DISPOSAL CONSIDERATIONS

Method of Disposal
Place in a sealed, labelled container for disposal. Dispose of in accordance with local waste regulations. Where several wipes have been opened and used, place in a sealed, labelled container for later disposal. May be incinerated in an approved facility. May be left to evaporate in a controlled place with no ignition sources. Used wipes may be required to be disposed of in accordance with the local authority’s infectious waste requirements.

SECTION 14 – TRANSPORT INFORMATION

Classification
Not classified as a Dangerous Good according to the Australian Code for Transport of Dangerous Goods by Road and Rail.

UN No.
Not applicable.

Class
Not applicable.

Subsidiary Risk[s]
Not applicable.

Packing Group
Not applicable.

Hazchem Code
Not applicable.

Shipping Name
Not applicable.

Other
Not applicable.

SECTION 15 – REGULATORY INFORMATION

Poison Schedule
Not a Scheduled Poison.
This MSDS summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this MSDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company. Our responsibility for products sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available on request.
