Comprehensive Solutions

Smith & Nephew
Journey II TKA
Total Knee Arthroplasty
Supporting healthcare professionals
Flexibility

Today’s knee implant patients present increasingly diverse scenarios. The versatility of the JOURNEY® II Total Knee System allows surgeons to simplify decision making intraoperatively and deliver personalized joint care no matter the patient indications.

**JOURNEY II XR® to CR to BCS**
- JOURNEY II CR and XR share same femur providing seamless conversions
- Ream through femoral trials

**Standard to Constrained**
- Add a constrained insert without using a stem on the femur, if desired

**Complex primary with confidence**
- Revision baseplate broadens the indications for complex primaries

*Requires LEGION REVISION baseplate with JOURNEY lock detail available from Inventures
JOURNEY™ II TKA Cobalt Chrome

In the evolving landscape of reimbursement, customers are seeking a variety of treatment solutions for their TKA needs. Traditionally, these segments are presented second-tier offerings for their value needs. Smith & Nephew believes that all patients should have access to the benefits of JOURNEY II TKA and have now expanded to more flexible options.

Designs intended to achieve greater levels of functional outcomes and motion possibilities, are now available in cobalt chrome.
A solution for every preference

Seamless intraoperative options allow confidence in:

- JOURNEY® II CR Standard
- JOURNEY II CR Deep Dish
- JOURNEY II BCS Standard
- JOURNEY II BCS Constrained*

* UHMWPE
Tibial base plate technologies

**DURAHONE° Advanced Finishing Process** is a patent-pending advanced manufacturing technique developed to improve our tibial baseplate polishing process. DURAHONE Finishing results in a more consistent and streamlined manufacturing process for the baseplate, while maintaining the proven locking mechanism, anatomic keel and footprint and the highly-polished titanium surface.

**JOURNEY® II BCS and CR with DURAHONE**

**JOURNEY II XR with DURAHONE**

---

Patellas

Round Resurfacing available in 9 and 7.5mm thicknesses. GENESIS™ II resurfacing and bi-convex patella may be used with the JOURNEY II TKA.
