1a) PRODUCT NAME(S): Uri-Kleen® Deodorizing Detergent

1b) INTENDED USE(S): See Technical Data Sheet.

1c) Details of Supplier of the Product Safety Data Sheet:

Compliance & Regulatory Department
Smith & Nephew Healthcare
Healthcare House
101 Hessle Road
Hull
HU3 2BN
Telephone: 01482 222200
Fax: 01482 222211
Email Address: Advice.Healthcare@smith-nephew.com

2. HAZARD INFORMATION:

2.1. Classification of the substance or mixture
Skin Corr. 1B;H314 Causes severe skin burns and eye damage.
Eye Dam. 1;H318 Causes serious eye damage.

2.2. Label elements
Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

Danger
H314 Causes severe skin burns and eye damage.
H318 Causes serious eye damage.

[Prevention]:
P260 Do not breathe mist / vapors / spray.
P264 Wash thoroughly after handling.
P280 Wear protective gloves / eye protection / face protection.

[Response]:
P301+330+331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+361+353 IF ON SKIN (or hair): Remove / Take off immediately all
contaminated clothing. Rinse skin with water / shower.
P304+340 IF INHALED: Remove victim to fresh air and keep at rest in a
position comfortable for breathing.
P305+351+338 IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses if present and easy to do - continue rinsing.
P310 Immediately call a POISON CENTER or doctor / physician.
P363 Wash contaminated clothing before reuse.

[Storage]:
P405 Store locked up.

[Disposal]:
P501 Dispose of contents / container in accordance with local / national regulations.

Health effects: Not applicable

3. COMPOSITION / INFORMATION ON INGREDIENTS:
This product contains the following substances that present a hazard within the meaning of
the relevant State and Federal Hazardous Substances regulations.

<table>
<thead>
<tr>
<th>Ingredient/Chemical Designations</th>
<th>Weight %</th>
<th>GHS Classification</th>
<th>Notes</th>
</tr>
</thead>
</table>
| Phosphoric acid                 | 25 - 50 | Skin Corr. 1B; H314 (> 25%)
| CAS Number: 0007664-38-2        |         | Eye Irrit. 2; H319: 10% ≤ C < 25%
|                                 |         | Skin Irrit. 2; H315: 10% ≤ C < 25% |

| Sodium hydroxide                | 1 - 5  | Skin Corr. 1A; H314
| CAS Number: 0001310-73-2        |         | Acute Tox. 4; H312
|                                 |         | Aquatic Acute 2; H401
|                                 |         | Aquatic Chronic 2; H411 |

| C9-C11 Synthetic Alcohol, Ethoxylated | 1 - 5  | Skin Irrit. 2; H315
| CAS Number: 0068439-46-3             |         | Eye Dam. 1; H318 |

| CAS Number: Proprietary          |         | [1] |

| Quaternary ammonium compounds, benzyl- | 1 - 5  | Acute Tox. 4; H302
| CAS Number: 0068391-01-5           |         | Skin Corr. 1B; H314
|                                 |         | Aquatic Acute 1; H400 |

| n-alkyl dimethyl ethyl benzyl ammonium | 1 - 5  | Flam. Liq. 3; H226 |
| chloroide CAS Number: 0068956-79-6    |         | [1] |

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage
(concentration) of composition has been withheld as a trade secret.
[1] Substance classified with a health or environmental hazard.
*The full texts of the phrases are shown in Section 16.

4. FIRST AID: In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Overview EFFECTS OF OVEREXPOSURE:
Skin: Direct contact may result in irritation, reddening, swelling, and, if untreated, severe skin damage.
Eyes: Contact may cause severe irritation and corneal damage, if untreated.
INGESTION: May cause burns to the mouth, esophagus, and stomach.
INHALATION: Aerosols and mists may severely damage contacted tissue and produce scarring. Exposure to high concentrations may cause pulmonary edema and chemical pneumonia. See section 2 for further details.

Eyes Causes serious eye damage.
Skin Causes severe skin burns and eye damage.

<table>
<thead>
<tr>
<th>a) Inhalation</th>
<th>Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.</th>
</tr>
</thead>
<tbody>
<tr>
<td>b) Contact with skin</td>
<td>Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.</td>
</tr>
<tr>
<td>c) Contact with eyes</td>
<td>Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.</td>
</tr>
<tr>
<td>d) Ingestion</td>
<td>If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.</td>
</tr>
</tbody>
</table>

5. FIRE AND EMERGENCY MEASURES:

5.1. Extinguishing media
Not combustible. Use extinguishing media suitable for surrounding fire

5.2. Special hazards arising from the substance or mixture
Hazardous decomposition: Oxides of phosphorous.
Do not breathe mist / vapors / spray.

5.3. Advice for fire-fighters
Specific hazards arising from the chemical: Not combustible. Under fire conditions, toxic, corrosive fumes are emitted. Non-combustible substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes. Oxides of phosphorous.
Special Protective Equipment and Precautions for Firefighters: Wear positive pressure self-contained breathing apparatus (SCBA). Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Structural firefighters protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible. Keep unauthorized personnel away. Evacuate residents who are downwind of fire. Dike area to prevent runoff and contamination of water sources. Dispose of fire control water later. Persons who may have been exposed to contaminated smoke should be immediately examined by a physician and checked for symptoms of poisoning. The symptoms should not be mistaken for heat exhaustion or smoke inhalation.

ERG Guide No. 154

6. ACCIDENTAL RELEASE MEASURES:

6.1. Personal precautions, protective equipment and emergency procedures
Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions
Do not allow spills to enter drains or waterways.
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up
Exercise caution during neutralization as considerable heat may be generated. Neutralize spill
area with soda ash, sodium bicarbonate or lime. Flush neutralized spill with copious amounts of water.

Personal Precautions: Ventilate enclosed areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Emergency Procedures: Keep unauthorized personnel away. Dike spill using absorbent or impervious materials such as earth, sand or clay. Dike or retain dilution water or water from firefighting for later disposal.

Neutralize residual product in the spill area using sodium carbonate or sodium bicarbonate.

7. HANDLING AND STORAGE PRECAUTIONS:

7.1. Precautions for safe handling

Do not get on skin or in eyes. Avoid breathing vapors and mists. Do not ingest. Handle and open container with care. Use only with adequate ventilation. Use caution when combining with water. DO NOT add water to corrosive liquid. ALWAYS add corrosive liquid water while stirring to prevent release of heat, steam and fumes. This product reacts violently with bases liberating heat and causing spattering.

See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities

Do not store near chlorine-containing compounds.

Store in a dry, well ventilated place. Store locked up; Keep away from incompatible materials.

Ventilate enclosed areas.

Incompatible materials: Strong oxidizing agents, strong reducing agents, bases and certain metals.

Store away from oxidizers and alkalines.

See section 2 for further details. - [Storage]:

7.3. Specific end use(s)

No data available.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION:

8.1. Control parameters

8.2. Exposure controls

Respiratory
Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MISHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eyes
Wear face shield and eye protection. An emergency eye wash must be readily accessible to the work area. Ensure safety shower is available near all areas of bulk storage, delivery and use.

Skin
Overalls which cover the body, arms and legs should be worn. Skin should not be exposed. All parts of the body should be washed after contact. Wear protective gloves selected with regard to both durability...
Engineering Controls

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Other Work Practices

An eyewash fountain should be located in areas where the product is used. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details.

[Prevention]:

9.2. Other information

No other relevant information.

10. STABILITY AND REACTIVITY:

10.1. Reactivity
Hazardous Polymerization will not occur.

10.2. Chemical stability
Stable under normal circumstances.

10.3. Possibility of hazardous reactions
10.4. Conditions to avoid
Contact with incompatible materials
Do not store near chlorine-containing compounds.

10.5. Incompatible materials
Strong oxidizing agents, strong reducing agents, bases and certain metals

10.6. Hazardous decomposition products
Oxides of phosphorous.

RE-VERIFICATION OF DOCUMENT SUITABILITY

The normal expiry date/time for a printed non-controlled document is 06:00 on the day after the date the document was printed. If such a document is required for more than one day, rather than print a new copy each day, the existing printout can be manually compared to the electronic copy. If it is the same version, you may sign and date the following agreement for each additional day:

“I have compared this paper copy to the original electronic copy on the date shown below and certify that both are the same version number”
