Disassembly and cleaning instruction

Pressfit Cup Impactor for EP-FIT PLUS
SAP/Art. No. 75009225/SYS251200

This disassembly and cleaning instruction is designed to supplement the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

Key
1 Pressfit impactor
2 Lock lever
3 Impactor adapter consisting of:
   – 3a Press plate
   – 3b Cerclip
4 Locking Cone
5 Mounting Instr. Adapter Ring
6 Mounting Instr. Adapter Plate
7 Wire

Disassembly
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• Opening the lock lever (2)
• Remove the tension cone (4) with the hexagon on the key (6)
• Remove the impactor attachment (3) with the mounting instrument (6)
• Disassemble all impactor cerclips (3b) from the press plate (3a) with the cerclip pliers (5)
• Remove the lock lever (2)
• Pull the wire (7) out till wire is visible to facilitate cleaning and rinsing
Pre-cleaning
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• Manually pre-clean all drill holes, passages and threads.

Machine cleaning and disinfection
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• Please take special care to ensure that any cavities and passages can be properly rinsed.

Drying
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• All drill holes and passages can also be dried with pressurised air.

Inspection and maintenance
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• Check the threads and the bearing surfaces for damage.

Assembly
In accordance with the instruction “Processing (cleaning, disinfection and sterilization) of instruments” Lit. No. 03389.

The following applies in addition to or in place of the instruction:

• Assembly is in reverse to disassembly.

• Carefully push back the pull wire (7) to prevent the wire bending and then breaking. Gently turning the wire backwards and forwards helps to position the wire. The flat part then completely disappears into the counter piece.

• Insert the lock lever (2) from the reverse through the opening of the pull wire. The counter piece has to be fixed in place to allow the lever to be used.

• Assemble all impactor cerclips (3b) from the press plate (3a) with the cerclip pliers (5).
