COBLATION® Surgery for Tonsil, Turbinate, Larynx and Soft Palate: a hands-on instructional course II

Draft Programme
Surgical Skills Centre, York, UK
Wednesday 14th September, 2016

Chairman: Mr. Neil Bateman, UK
Invited Faculty: Dr. Georg Deschka, Austria
                 Mr. Sam Khemani, UK
Course Description

The COBLATION® course features scientific lectures, workshops and open discussions, enabling the delegate to learn more about COBLATION® tonsillectomy and other applications. The subject around different methods of tonsillar tissue removal is explored in depth as well as step-by-step guides to best practice. Practical workstations will allow the delegates to learn practice the techniques required to use this technology safely in a controlled environment.

Learning Objectives

✓ Understand core principles of COBLATION® in ENT and how it differs from other RF devices
✓ Increase knowledge of using COBLATION® technology in tonsillectomy, turbinate reduction and laryngeal procedures
✓ Selecting appropriate patients for the procedures to ensure good patient outcomes

Participant Profile

✓ HCPs with experience in adult / paediatric tonsillectomy, turbinate reduction and laryngeal surgery
✓ HCPs wishing to gain a full understanding of COBLATION® in ENT surgery

Departures and transfers to airports and train stations from 16.00
Products used in this course

**EVAC 70 Xtra HP** wand
For tonsil/adenoid removal

**Reflex Ultra 45 wand**
For turbinate reduction

**TURBINATOR** wand
For turbinate reduction

**PROcise LW wand**
For laryngeal procedures
To Apply
Registration will cover travel, course dinner and accommodation for the night of Tuesday 13th September, course materials and refreshments.
If more than 1 night is required due to needing to travel outside of the course dates please notify Jessica.mainprize@smith-nephew.com who will be making the reservations.
